Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on Amendment filed November 17, 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. Applicant's amendment and accompanying remarks filed November 17, 2006 are acknowledged.
2. Examiner acknowledges amended claims 1 and 10
3. Examiner acknowledges cancelled claim 8.
4. The rejection of claims 1-10 under 35 U.S.C. 102(b) as being anticipated by Hosokawa et al., U.S. Pre Grant Publication 2003/0205696 is withdrawn due to applicant's argument.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1-7 and 9-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Thoms et al., U.S. Pre Grant Publication 2003/0205696.

Art Unit: 1774

Thoms discloses carbazole-based materials for guest-host electroluminescent systems. The reference discloses that the host material comprises a compound having a carbazole core such as

and guest is a phosphorescent emitter (see paragraph 0046). The carbazole derivative reads on the instant claims when Ar_1 of the present claims is a phenyl group; n is 2 and X_1 is a single bond. Paragraph 0015 of the reference discloses a suitable guest emissive such as tris(2-phenylpyridine) iridium. Paragraph 0013 discloses that the guest emitter is a phosphorescent emitter with a peak wavelength below about 500 nm. The reference discloses carbazole based host materials, as does applicant's specification. It would be inherent for the carbazole-based host material of the reference to have reorganization energy of from than 0 to 0.50 eV since the host materials are the same for the reference and present claims.

Response to Arguments

7. Applicant's arguments filed November 17, 2006 have been fully considered but they are not persuasive. Applicant argues that the Thoms reference does not read on the instant claims. Thoms discloses an organic electroluminescent device comprising a light emissive layer that

Art Unit: 1774

contains a host compound, , and a phosphorescent emitter. The carbazole derivative of the Thoms reference reads on the instant claims when Ar₁ is phenyl; n is 2 and X₁ is a single bond. The Thoms reference has the same components as the present claims. Therefore, the rejection is maintained.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communication from the examiner should be directed to Camie S. Thompson whose telephone number is (571) 272-1530. The examiner can normally be reached on Monday through Friday from 7:30 am to 4:00 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena L Dye, can be reached at (571) 272-3186. The fax phone number for the Group is 571-273-8300.
